

The logo for IDGT (Institute of Digital Game Technology) features the lowercase letters 'idgt' in a white, stylized font on a red rectangular background.

Institute of Digital Game Technology

IDGT (Institute of Digital Game Technology) is a wholly owned subsidiary of TQ-Global. IDGT's objectives are to provide technology, conduct R & D and develop human resources needed to fuel the industry in Asia.

IDGT has 2 campuses, one in Shenzhen China and the other in NTU gameLAB under the Advanced Game Platform Program. Some of our research result are used in the PS3 and Xbox game "Baja-The edge of control" game published by THQ worldwide. IDGT has also received funding from NRF (Singapore National Research Fund) for research and development in advanced games platform technology.
